Experiences

Front-end Developer (Nov. 2021 - present) - [Owlab.io](#)

- Build a design system for internal use
- Help clients define their needs and project scopes
- Build a scalable and accessible component library
- Build bulletproof and accessible interfaces (Vue)
- Provide feedback and make small adjustment on mockups
- Work with various clients (AV Concept, CNRS x2, Regarts)

Front-end Developer (Mar. 2020 - present) - [Freelance](#)

- Co-found the platform Mission Climat
- Build bulletproof and accessible interfaces (React)
- Provide feedback and make small adjustment on mockups
- Work on multiple projects (Elocance x2, Ouistiti, Mission Climat x2)

Lead Teacher (Feb. 2021 - present) - [Ironhack](#)

For the UX / UI cohorts, during their "Web Dev Week" :

- Teach the basics of Web history, HTML, CSS and accessibility
- Provide a developer insight to UX / UI students for collaboration
- Illustrate key concepts through coding sessions
- Help students build a basic portfolio website

Teacher Assistant (Mar. 2020 - Sept. 2021) - [Ironhack](#) & [Konexio](#)

For the Web Development cohorts :

- Review the students pre-work / bootcamp labs and provide feedback
- Help students to understand core concepts with reinforcement sessions
- Help students during labs, project weeks and teach them how to debug
- Write documentation (for Konexio : remodel the front-end curriculum)
- Keep a constant communication with program managers and staff
